

HaynesPro®

CERTIFIED WORKSHOP

Century Auto Clinic

Valid until: 2026/09/05

Verified Repair Data

Your vehicle is repaired using HaynesPro, a trusted source of OEM technical data. The repair procedures, service schedules and specifications follow manufacturer standards. Ensuring the job was done right the first time.

Accurate Labour Times

The time charged for labour is based on HaynesPro's hourly-rate system, which includes overlapping tasks and follow-up work. This means you only pay for the work required nothing more, nothing less.

Professional Standards

Our technicians use professional software trusted by thousands of workshops across South Africa. From fault code diagnosis to torque specs and maintenance checklists, every step is guided by reliable repair information.
